Clairvoyance (The Matrix Dictionary)

Clairvoyance is a kind of para-psychic opening, that gives a visual, auditory or emotive knowledge about a past and a future, which lies outside your own personality. Clairvoyants, or psychics, can perform as mediums/channelers for the dead, for spirits or gods – or they can perform so-called "readings."
Clairvoyance is also known in connection with astral travel or astral projection (out-of-body experiences). This can for example happen when a medium allows a dead person, or a spirit of some kind, to possess her body, and use it as a channel.

The problem with the alternative environment within the New Age movement is that the normal inaccessible areas of the astral plane´s collective history, which in principle lie outside the area of the Ego-consciousness, are open for all sorts of fantasies.

Within the New Age movement there are countless people today, who work egoistic with karmic experiences – that is to say: they earn money as clairvoyants, regression therapists etc. Some of them live on pure make believe, others are direct frauds. Long Island Medium

Long Island Medium is a television program on *The (so-called) Learning Channel* featuring Theresa Caputo doing readings as a psychic medium. The article tells some of the worst examples of disillusioned psychics, for example when they tell people that their missing relatives are dead, and later (often years after) it turns up that they not are dead at all.
